

# SNAPS GUEST SPEAKER

Following are details concerning the speaker at our SNAPS Support Group meeting:

Speaker: Dr. Devin Luzod  
Organization: Spinal Care of Nevada

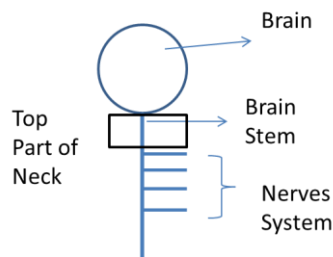

Date: 6/15/13

## Notes

In Dianne's email she indicated that Dr. Luzod uses the NUCCA Chiropractic Method to help treat patients. Other natural remedies used include Low Level Laser, Therapeutic Stretches and all available chiropractic methods. He also knows a lot about PPS.

Dr Luzod started with how he became a chiropractor. As a young child, his parents took him to a chiropractor for allergies and as he got older, he knew he wanted to be a chiropractor. He was treated by a NACCA doctor after a car accident which had a more gentle way to do chiropractic treatments that had long lasting effects.

He did a drawing that looked like this:

NUCCA technique on the upper neck may help affect other areas if you get pressure of the nerves that may be felt in other areas such as lower area that can cause interference to the legs

Dr. Luzod office can do a basic screening at no charge. They will let you know based on that consultation whether there is a possibility on whether they can help. If they can't they will say so. The next step is a two day process which consists of:

- Day 1 - Screening and study to determine issues
- Day 2 – Meeting to talk about what was found in Day 1 efforts along with:
  - How long the treatment will take
  - How much it will cost
  - Coverage
